ON THE MENU

Over 60 stands including around ten brewers, new music stages with even more DJ sets and surprises to come: LSFF #6 is everything the festival does best — taken to the next level.

On the entertainment side, festivaliers can look forward to exceptional talent. On the programme: a masterclass by **Victor Kuntz**, semi-finalist of Top Chef 2026, and book signings by **Mélanie en Véganie** (Bistrot Végétal, out September 2026) and **Jérôme Plant Kitchen** (Ceci n'est pas de la viande, out September 2026).

The festival also has something special in store for families: an inflatable castle by **PicNic** and a **Decathlon** activity space to get moving between stands — Basketball Power 4, cylindrical ping-pong and a My Health check-up. Eat well, play together and take care of yourself.

The official programme will be revealed on **September 8th**.

WHAT DRIVES US

Created in 2021 by **Hello Lille**, the **Attractiveness Agency** of the Métropole Européenne de Lille (MEL), to support local restaurateurs and brewers severely impacted by the COVID crisis, the LSFF has never lost sight of its original goal: to showcase flavours and culinary concepts rooted in local, creative and indulgent food. From 16,000 festivaliers in 2021 to 55,000 in 2025, it is you who have made this event grow.

For its 6th edition, the festival returns to **EuraTechnologies** — a former red-brick cotton mill transformed into a digital hub of excellence, and a symbol of the urban and creative transformation of the metropolitan area. An industrial setting that perfectly embodies the spirit of the festival: popular, vibrant, and deeply rooted in its territory.

The festival is also a place of transmission: the passion of a chef at every stand, brewers sharing their craft, masterclasses with culinary talent.

The programme is designed for all generations, blending gastronomy and culture: this year again, live music and DJ sets will enrich the experience. And for the eyes: a unique art trail featuring three monumental works on loan from **Lille3000** (*Entidades*, *Walter and Happy Heads*) scattered across the EuraTechnologies site.
